

PROJECT OVERVIEW

We are thrilled to introduce our latest project a 14 meters Floating House designed to offer a luxurious and comfortable lifestyle on water. With accommodation for up to 5 people and capacity to host up to 15 guests for daily entertainment or cruising, this floating structure provides a spacious living environment. Engineered for exceptional stability and versatility, it is the perfect solution for those seeking both comfort and adventure on the water.

INTERIOR FOCUS

The interior design of this project combines elegance, a minimalist approach, and functionality. Every living space has been carefully planned to maximize user comfort. The integration of modern amenities with the serene ambiance of life on the water offers an ideal setting – whether for short getaways or long-term living.

TECHNICAL SPECIFICATIONS

Hull Length: 14 meters

Type: Floating House

Capacity: 5-person accommodation / 15-person entertainment & cruising

Dark, solid-colored kitchen cabinet unit, likely a refrigerator or tall storage cabinet, positioned on the left side of the kitchen.

Light-colored, shaker-style kitchen cabinets with black knobs, mounted above the countertop.

Light-colored, shaker-style kitchen cabinets with black knobs, mounted above the countertop on the right side.

A dark floating shelf holding four light blue mugs.

A dark floating shelf holding a stack of white plates and a brown ceramic bowl.

Two white ceramic teapots or pitchers on the countertop.

A stainless steel kettle on the cooktop.

A stainless steel kitchen faucet with a pull-down sprayer, mounted over the sink.

Two modern, light-colored chairs with metal legs, positioned near a dining table in the background.
